EDUCATION

North West University (NWU) -

Potchefstroom Campus

BSc In Information Technology

Expected Graduation: November 2026

Relevant Coursework

- Software Development
- Object-Oriented Programming
- Systems Analysis and Design
- Database
- Artificial Intelligence
- Data Structures and Algorithms
- Computer Networks
- Decision Support Systems

CERTIFICATIONS

Cisco Networking Academy

- Introduction to Cybersecurity
- Network Basics

TECHNICAL SKILLS

Languages:

- Python, Java, C++, C#

Frameworks & Tools:

- ASP.NET Web Forms, .NET MAUI, .NET Framework
- GitHub, Visual Studio, VS Code

Databases:

- SQL, SQLite

PROFILE

Final-year Bachelor of Science in Information Technology student at North-West University with a strong passion for software development, artificial intelligence, and problem-solving. Experienced in developing applications using C#, ASP.NET, Python, Java, SQL Server, and .NET MAUI through academic projects and practical experience

LEADERSHIP & INVOLVEMENT

Student Assistant

North-West University

- Mentored students in Python and C++ programming.
- Supported practical learning and academic success.
- Assisted academic staff with assessment moderation.
- Strengthened communication, leadership, and teamwork skills.

EXPERIENCE

Python Student Assistant

North-West University

Feb 2026 – June 2026

- Mentor students in Python programming and software development concepts
- Assist students with debugging and resolving programming challenges
- Support practical laboratory sessions and academic assessments
- Contribute to marking and moderation while maintaining academic standards
- Help students strengthen analytical thinking and problem-solving skills

C++ Student Assistant

North-West University

Jul 2025 – Nov 2025

- Assisted 40+ students in understanding structured programming concepts including control structures, functions, and OOP

PROJECTS

Python Virtual Assistant

Technologies: Python

- Developed a voice-controlled virtual assistant
- Implemented speech recognition for command execution
- Automated desktop tasks and application control

Web Scraper

Technologies: Python

- Developed a web scraper to extract structured data from websites
- Processed and cleaned extracted data
- Improved data accessibility through automation

Hope Through Hands Website

Technologies: ASP.NET Web Forms | C# | SQL Server | GitHub

- Designed and developed a web-based charity management application
- Implemented CRUD functionality for managing donations and beneficiaries
- Designed and implemented a relational SQL Server database
- Applied Systems Analysis and Design principles throughout development
- Collaborated within a development team using GitHub for version control
- Produced use case diagrams, process models, and database models

Mobile Application

Technologies: C# | .NET MAUI | SQLite

- Developing a cross-platform mobile application
- Implementing secure user authentication
- Designing a responsive and user-friendly interface

- Supported students during Python practical sessions
- Marked and moderated practical assessments
- Guided students through programming logic and debugging techniques
- Invigilated assessments and provided technical support

Python Student Assistant

North-West University

Feb 2025 – Jun 2025

- Supported students during Python practical sessions
- Assisted with marking and moderation.
- Guided students through programming logic and debugging techniques
- Helped students build confidence in software development

Python Development Intern

Hex Softwares

Apr 2025 – May 2025

- Developed a Python-based virtual assistant for task automation
- Built a web scraper to extract and structure website data
- Applied Python programming to real-world automation challenges
- Improved problem-solving and software development skills through practical projects

Packager

Jumbo Farmers | Mar 2023 – Jan 2024

- Maintained accuracy and efficiency in order preparation and packaging
- Ensured product quality through inspection and adherence to standards
- Demonstrated reliability, teamwork, and strong attention to detail

SOFT SKILLS

- Problem Solving
- Critical Thinking
- Analytical Skills
- Communication
- Teamwork
- Time Management
- Adaptability
- Continuous Learning
- Leadership
- Attention to Detail
